• 5.8% of St. Kilda Unemployed = 1,230
• Remaining Aboriginal people = 122

WATER HARVESTING CALCULATIONS (L):

\[
\pi (0.85)^2 \times H \times 7.48 \times \text{Number of towers (4)}
\]

= 80 L \times 4 = 320 L

\[
\pi (0.62)^2 \times H \times 7.48 \times \text{Number of towers (8)}
\]

= 27 L \times 8 = 216 L

\[
\pi (0.35)^2 \times H \times 7.48 \times \text{Number of towers (8)}
\]

= 5 L \times 8 = 40 L

= 576 L \times 365 \text{ DAYS OF THE YEAR}

= 210,240 L
