THE PALM PALAIS

ST KILDA AS A 'FUN PALACE': HISTORIES, FICTIONS & IDENTITIES

Collage informs a dynamic ground plane of piezoelectric paving - generating futures.

A grid of Catani's palm trees, between which solar shade sails & vertical surfaces can be hung.

From the Palm Palais looking towards the beach, a yellow grid sets a datum level. It is a flexible means through which to distribute power for multiple uses and also facilitates underground energy storage.
