

THE MELBOURNE INTERNATIONAL  
CONCERTS AND FESTIVALS  
STAGE. THE FUTURE

we raised a new symbolic gate for Melbourne and a stage for live concerts and international festivals. On the back side of this stage we propose to use wind turbines which can both produce electricity and, aesthetically, give our stage a science fictional futuristic look.

The dazzling attraction capacity of our shore. As we always have great number of visitors in our site, building and applying Electricity generating Sidewalks, especially equipped play grounds for children ...
