*"We are pre-programmed by our intuitions of building types to behave in ways appropriate to the form."*

Two building types reign over St. Kilda's pre-programmed intuitions, Palais Theater and Luna park. The festive atmosphere exuded by these two landmarks impregnate the imaginary of the place. Our proposal takes a common denominator that will always be present in every festivity ; the balloon. Ballo-on aims to make public and open the joy felt only in the depths of these two projects.
