

ADAPTABLE TO
MASDAR CITY'S
MASTERPLAN

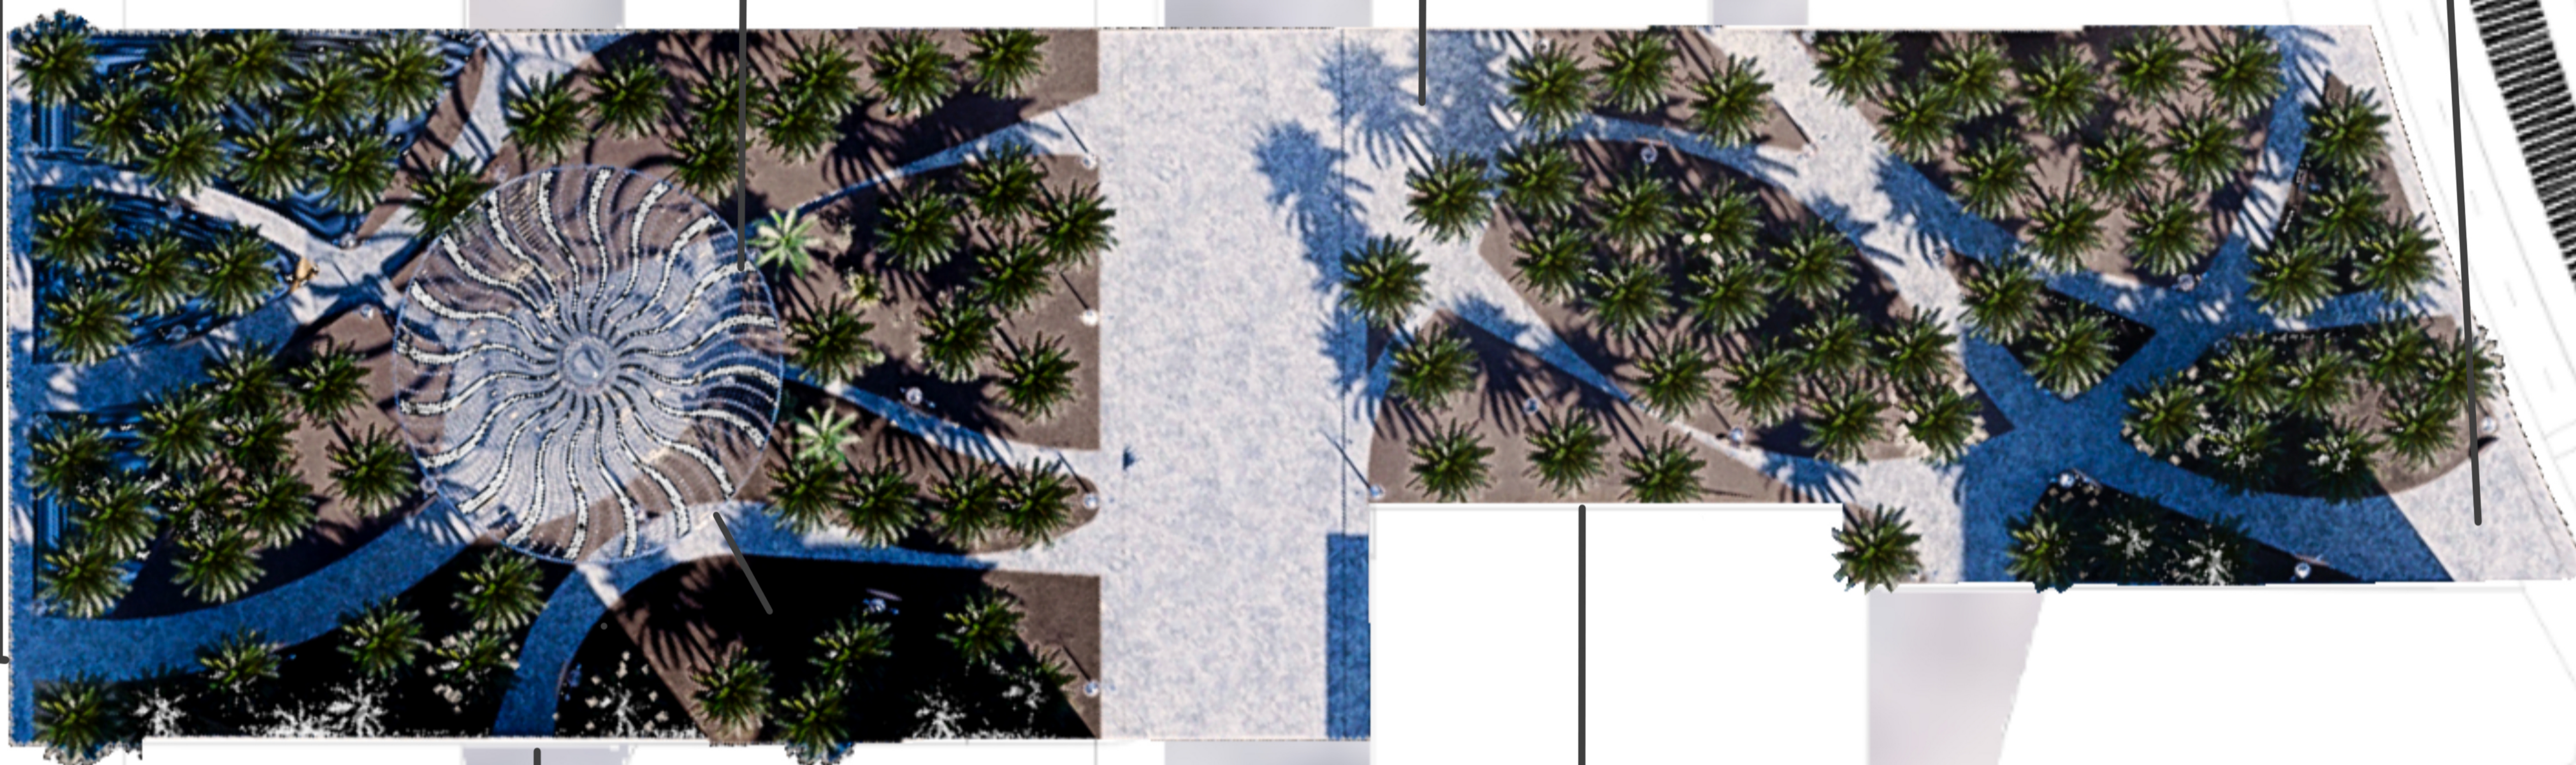

AREA FOR
MASDAR CITY'S
EXHIBITION

GROUP RAPID
TRANSIT STATION

LIGHT RAIL
TRANSIT STATION

This area was designated for resting and contemplating as it's not expecting a high transit of population. The zone was designed for citizens to clear their mind and admire what Masdar City represents and the vision to the future of one of world's most sustainable urban communities.

This area was designed expecting a highest transit of population, achieving a complex division in the paths to connect the Group Rapid Transit Station and the Light Rail Transit Station. It also functions as a meeting and resting point for citizens who take both transports.
