

# SAND STORM

## HOW TO PRODUCT ELECTRICITY

SOLAR ENERGIE

SAND ENERGIE

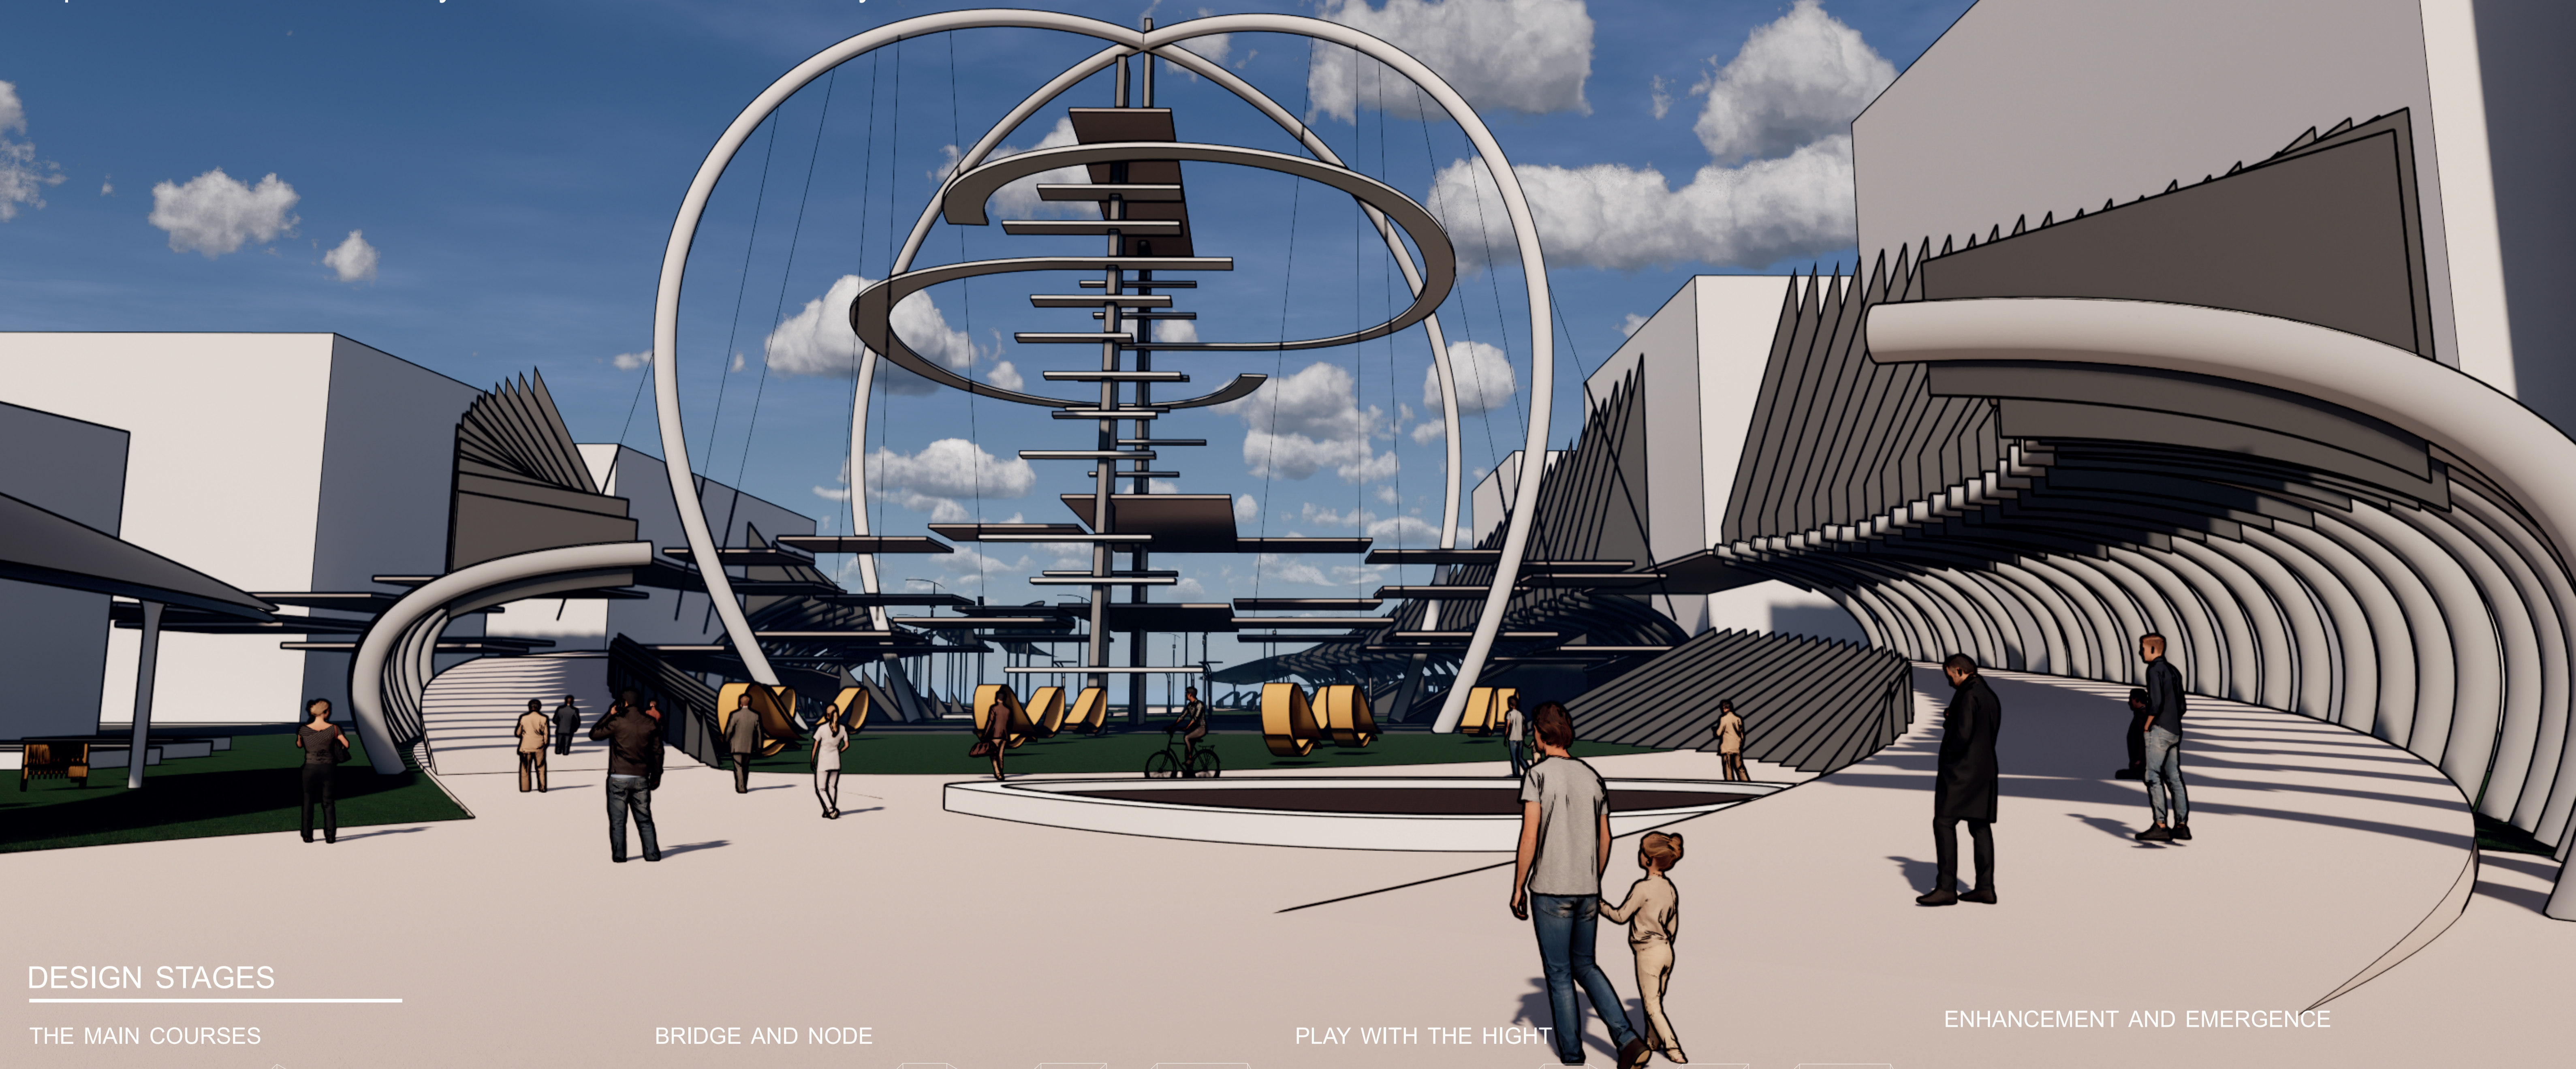

WIND ENERGIE

HUMAN POWER

Sand storm is the finality and the beginning of an axis of promenade and vélegiature, combining solar energy, wind energy and human energy.

The use of the concept of sand storm which is simbol of strength and fragmentation for him gives another image, that of demarqation and amazement that creating a dynamic and attractive installation for the inhabitants and the tourists, hope to become one of the symbols of the new masdar city.
