# CLIMATE

الربيع

In Abu Dhabi, the summer is long, scorching, oppressive, arid and partially overcast; the winter is pleasant, dry, with strong winds and almost cloudless sky. Throughout the year, the temperature generally ranges from 16 °C to 40 °C and is rarely below 13 °C or above 44 °C.

Based on the beach / pool index, the best times of the year to visit Abu Dhabi and conduct warm weather activities are throughout the month of April and the end of October to the beginning of December.
