

HexaLife

Hexalife is a path that gives electricity, ventilation, conditioning, reduced humidity and suitable environment for new plants never had the chance to live in Abu-Dabi naturally, as well as beauty while everything enclounding us is a part.

The design:

Everything in life count on everything basically we can't live without the plants so I thought that it will be the concept of the project duo to its benefits ,the hexagon is a cell wall of plant that have plenty of advantages like functionality, formation, harmony, and beauty.
