

Integrated , Free , Immortal & Natural Infrastructures Technology

Concept

Let's Return To The Source !

In Our World Everything Has a Cycle :
Matter has its cycle between living
and nonliving parts of the environment

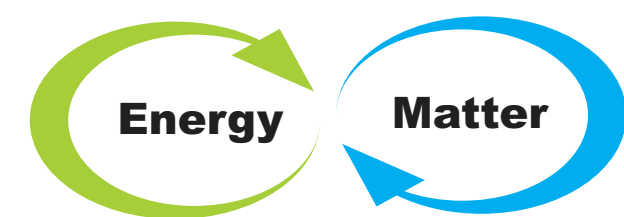

And also Energy has its cycle
between Kinetic & Potential Forms

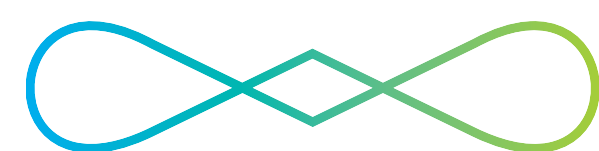

The Source of Matter and Energy is
the Existence
Wherever there is the existence
they are convertible

$$E = mc^2$$

and the Existence is Endlessness ,
is Ultimated
is INFINITY

Welcome to INFINITY

The primary sources of Energy to life :

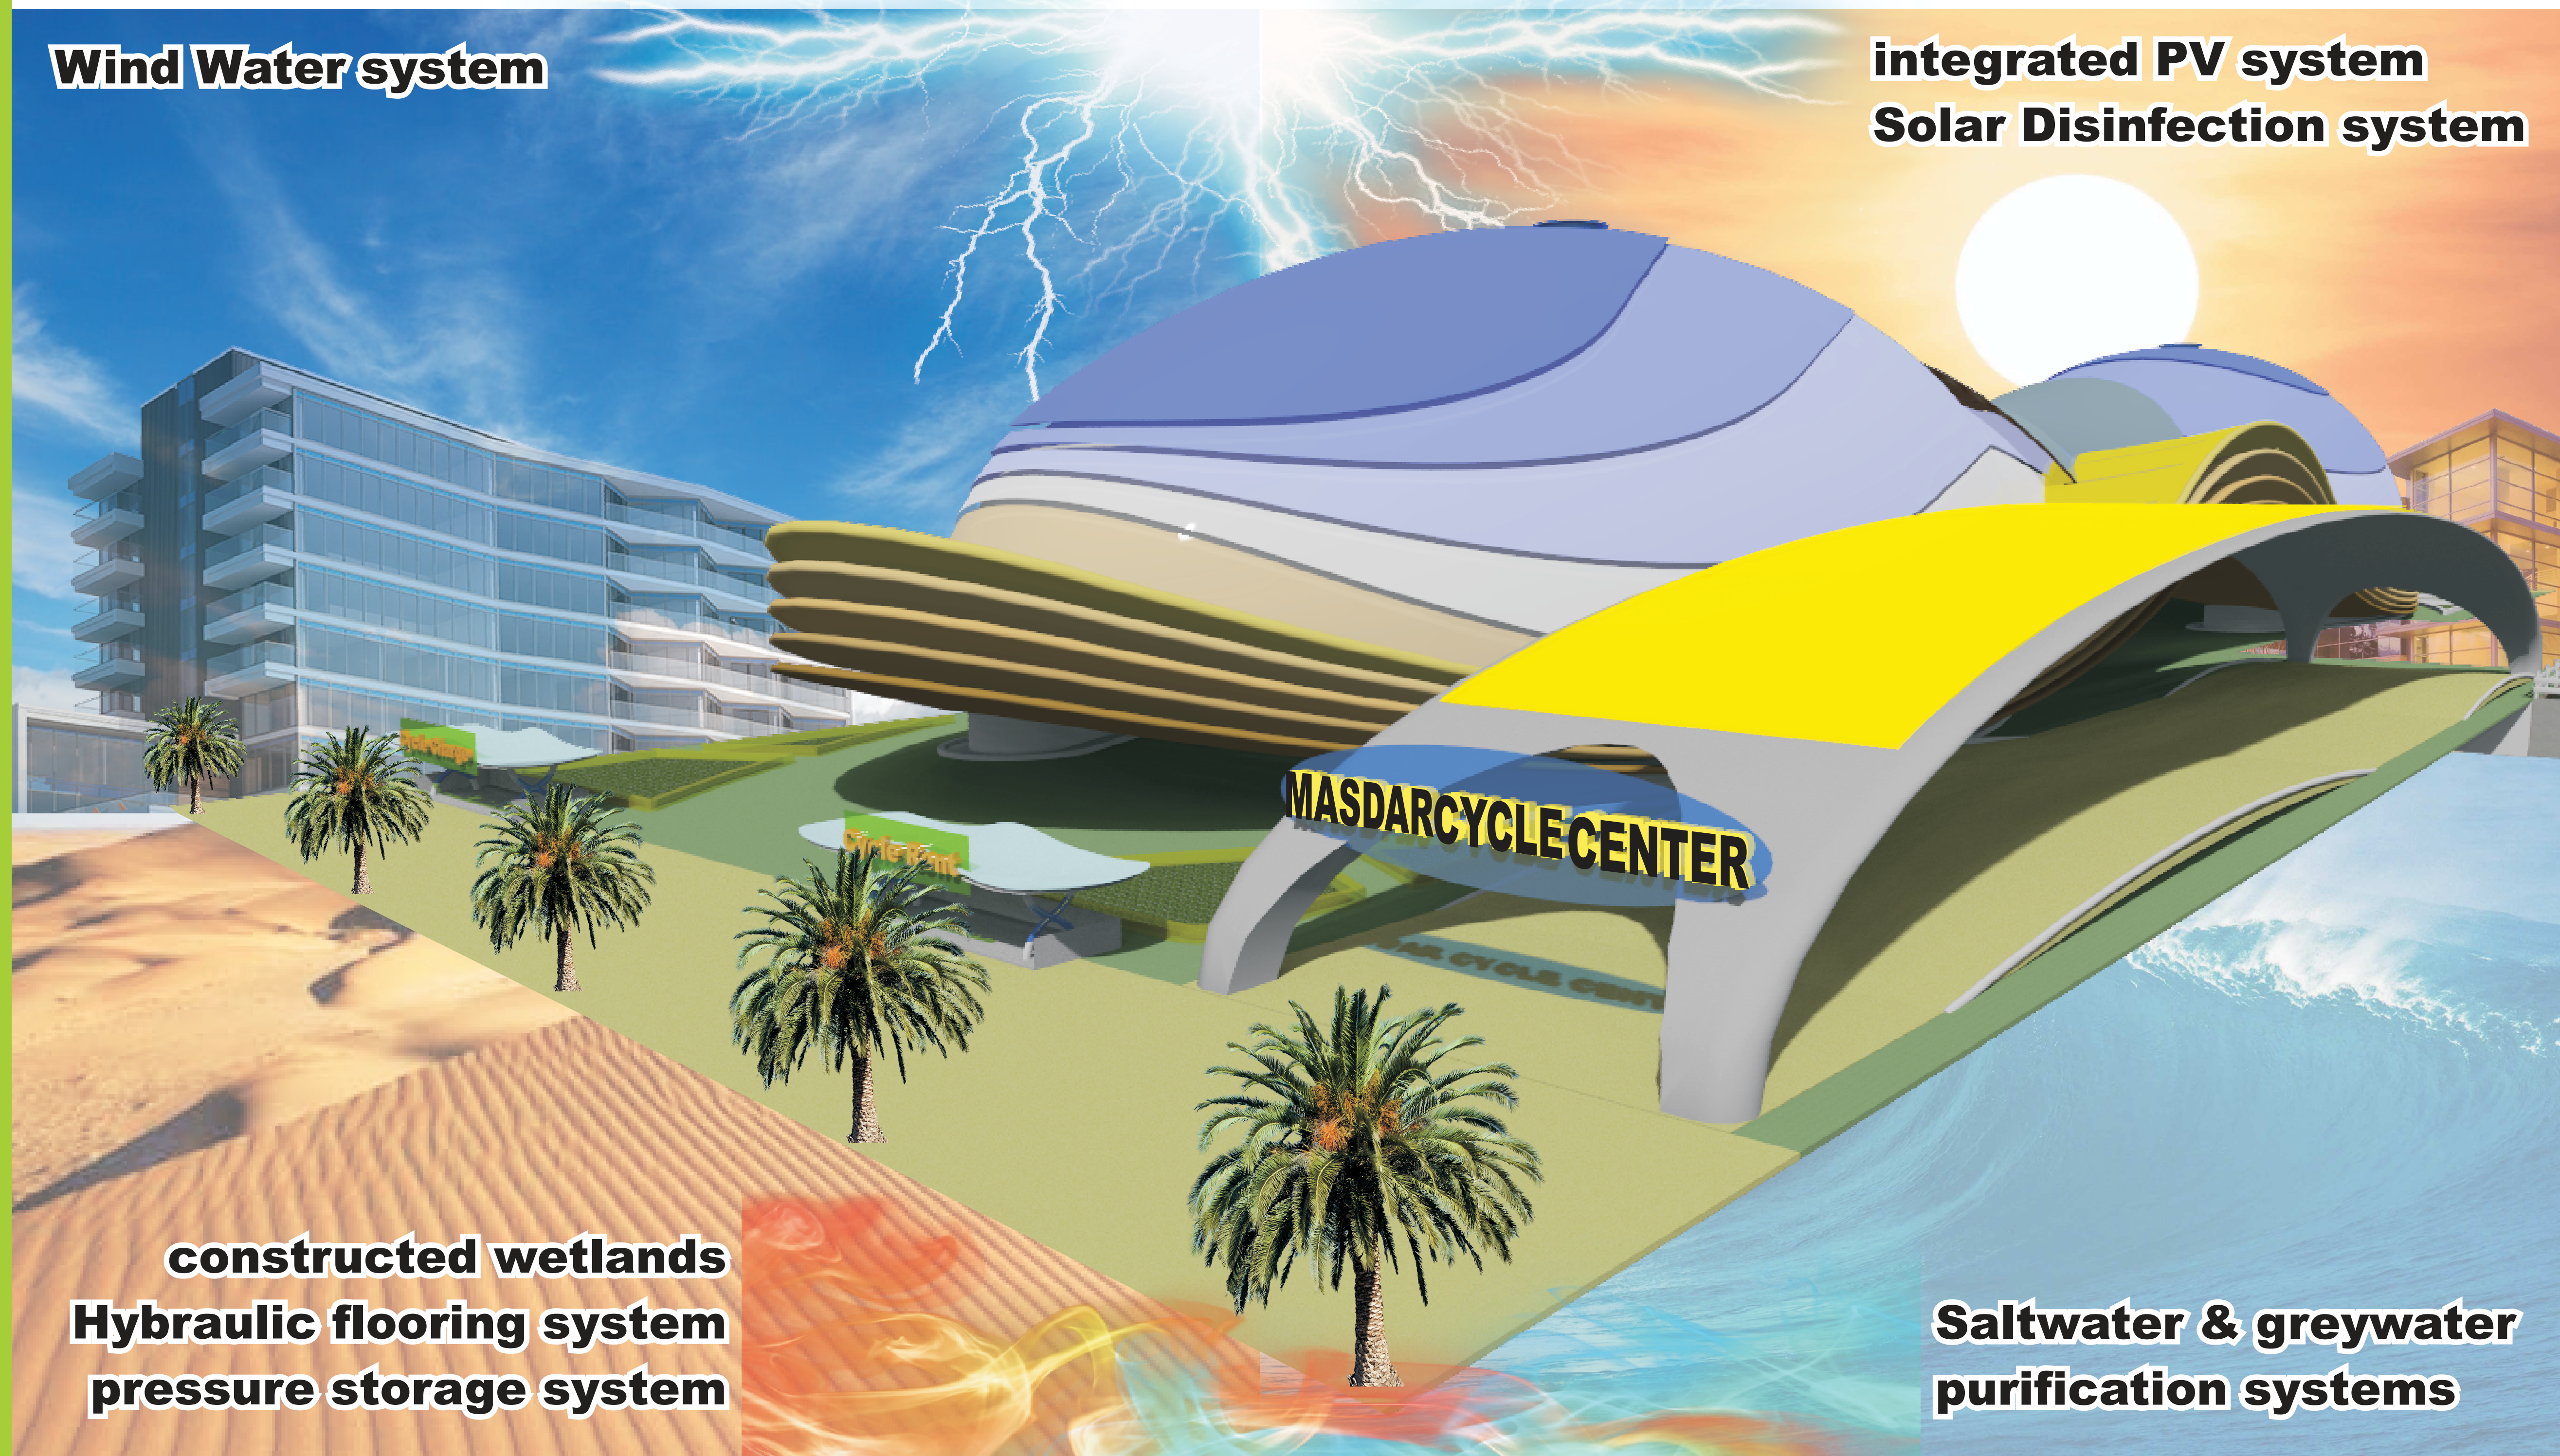

In many classic cultures ,it's believed there are
four main elements for life : Fire, Water, Wind, Earth.
Now we know there are more than 100 elements in our
world . But still we need these four elementary elements
to live and enjoy the life . Scientists are working and
researching how we can use natural and renewable
energies of Sun , Air , Earth and Sea. So These four
elements are the main sources of energy and life,
today and future .

Sun
Air
Earth
Sea

These four main sources of our life are around us everywhere
We can use their benefits and gifts for live and to be together.
Also we can see and hear their inspirations and invitation
to be creative . If we can imagine , we can do .

Wind Water system

integrated PV system Solar Disinfection system

constructed wetlands
Hydraulic flooring system
pressure storage system

Saltwater & greywater
purification systems

The sun, with all those planets revolving around it and dependent on it, can still ripen a bunch of grapes as if it had nothing else in the Universe to do (Galileo Galilei)
