

INFINITY

Benefits

Masdar cycle center is a place for : cycle sports, cycle championships, entertainment and enjoying times, more use = more energy and exergy

INFINITY will shine at nights by its edges covered with phosphor painting

Optical fibers are flexible , transparent and light-absorbing materials made by glass or plastics . We can use them to light interior spaces by natural sun's light as beautiful patterns.

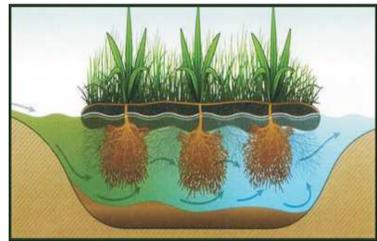

Interiors

Visitors will enjoy their times in INFINITY more visitors = more energy

Wind Water system of INFINITY works whenever wind flows and offers the visitors a glass of cold and fresh drink water . Enjoy it !

Constructed wetlands treatment system can purify about 75 liters of wastewater / day / m². We have 1100 m² of constructed wetlands , so we have about 83 m³ of fresh water /day almost as free .

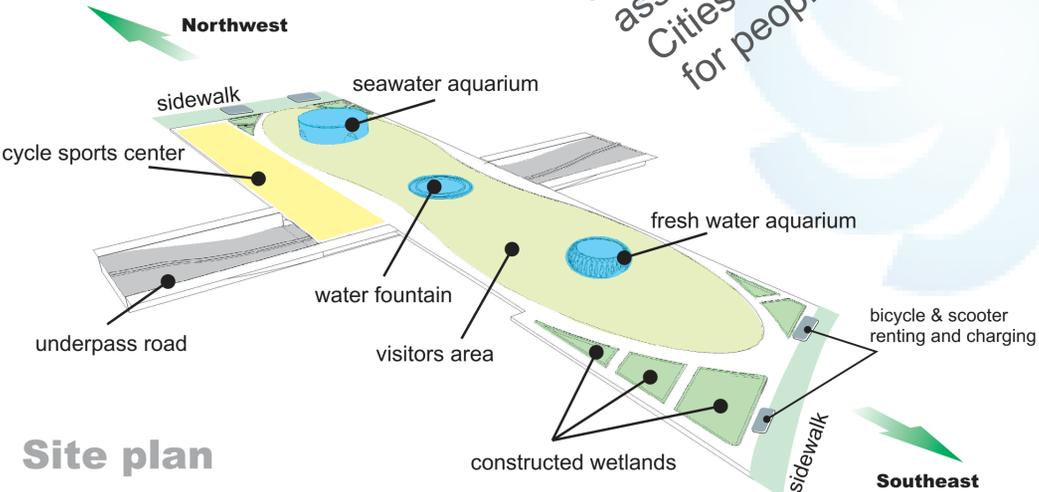

Underpass road = safety , calm assurance and comfort for people. Cities , buildings , systems etc. are for people not people for them !

From the spaceour planet Earthshines as a glorious blue jewel because of its main components water airground and light of the Sun. maybe one day we'll see another one in Masdar city... it will be the INFINITY

cycle charge and cycle rent are located on two sides of the site and always are ready to let people rent an electric bicycle or scooter , or charge their own cycles by a clean and renewable energy . They will like these cycles and prefer them to cars .

Site plan
