

## SEVEN STARS TOWER

ON EACH SIDE OF THE STRUCTURE, THREE ROWS OF SOLAR PANELS ARE ARRANGED HORIZONTALLY AND TWENTY VERTICAL ROWS THAT ARE LIT AT NIGHT WITH LINEAR LIGHTS. IN THIS STRUCTURE, ALL ITS COMPONENTS ARE CONNECTED TO THE MAIN STRUCTURE LOCATED IN THE CENTER, AND THIS STRUCTURE ALLOWS US TO MAKE ALL CHANGES AND REPAIRS INSIDE IT WITHOUT ANY CONNECTION WITH THE OUTSIDE STRUCTURE.

THE BROKEN PART OF THE ELEMENT AT NIGHT IS COMPLETELY LUMINOUS AND IT IS ALSO VISIBLE FROM THE DISTANT DISTANCE. THE ELEMENTS HAVE THEIR OWN BEAUTIFUL DAY-TIME THROUGHOUT THE DAY, AS WELL AS ATTRACTING AT LEAST 1,000 KW OF ELECTRICITY, THE ECOLOGICAL CITY OF MASDAR
