

# MILESTONE

## ENERGY + AESTHETIC

Milestone is a significant stage which is The development of something big and popular, from this the art of making or Designing a form which is familiar to the particular region or a state the ideology is To combine or generate Energy and as Well as Aesthetics from the sculpture being Proposed.

Heat Energy → Electrical energy.

The strength and vital necessary for being In the flow, Power derived from the Utilisation of physical or chemical resources Especially to Convert from heat energy to electrical energy.

Symbol of Force or Courage.

I have attempted to design a sculpture which Should generate energy and as well it will be a Architectural Marvel the ideology or Inspiration is the symbol or emblem of UAE.
