

Evening view
from inside
towards the
south, towards
Masdar City

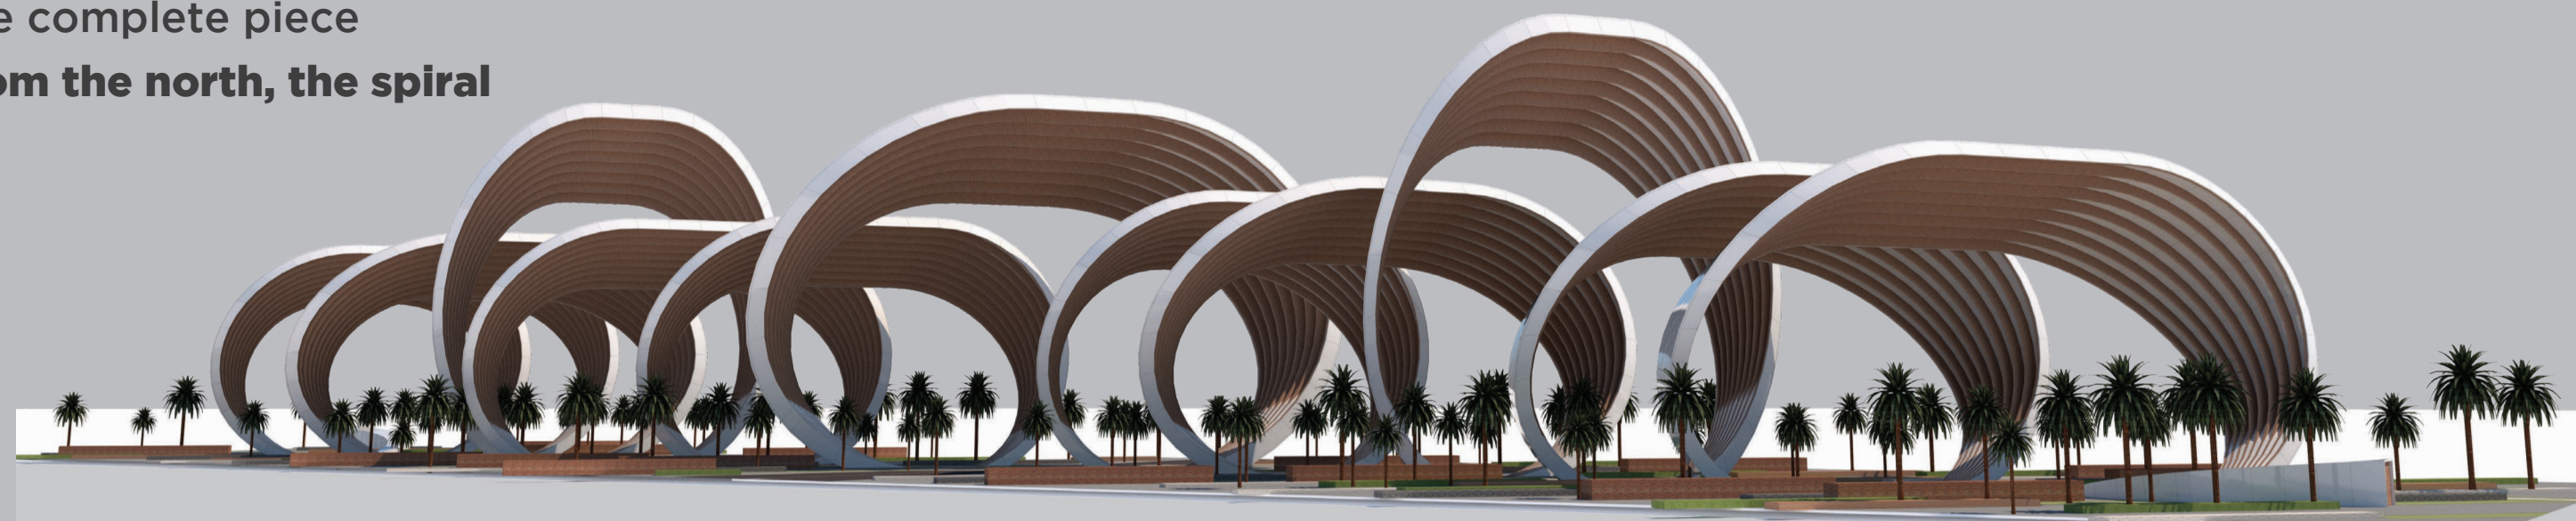

A spiral
connecting
and moving

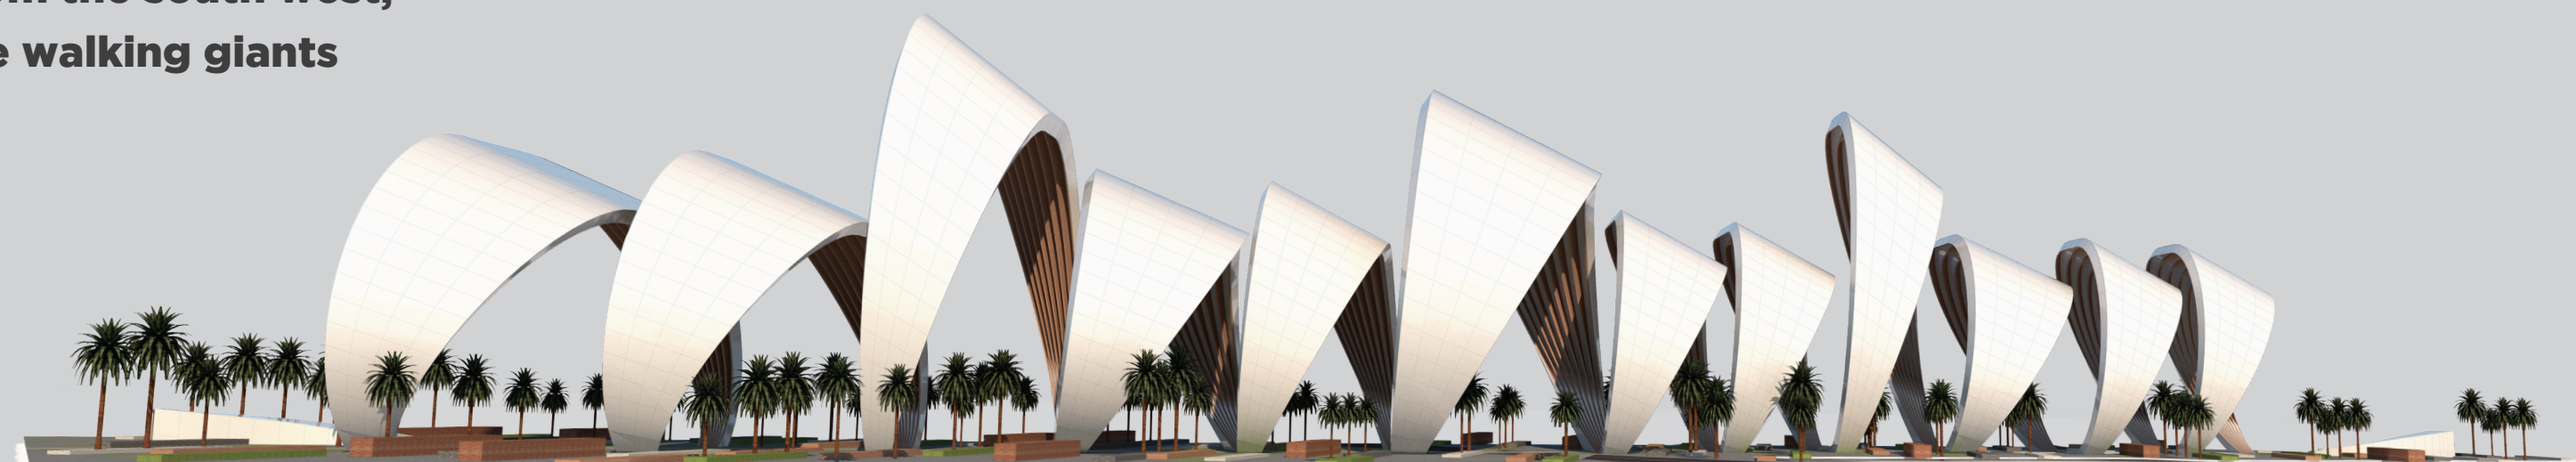

A cocoon,
protecting
and changing

White
Solar
Panels
White
Glass
Cladding
Wooden
Arches

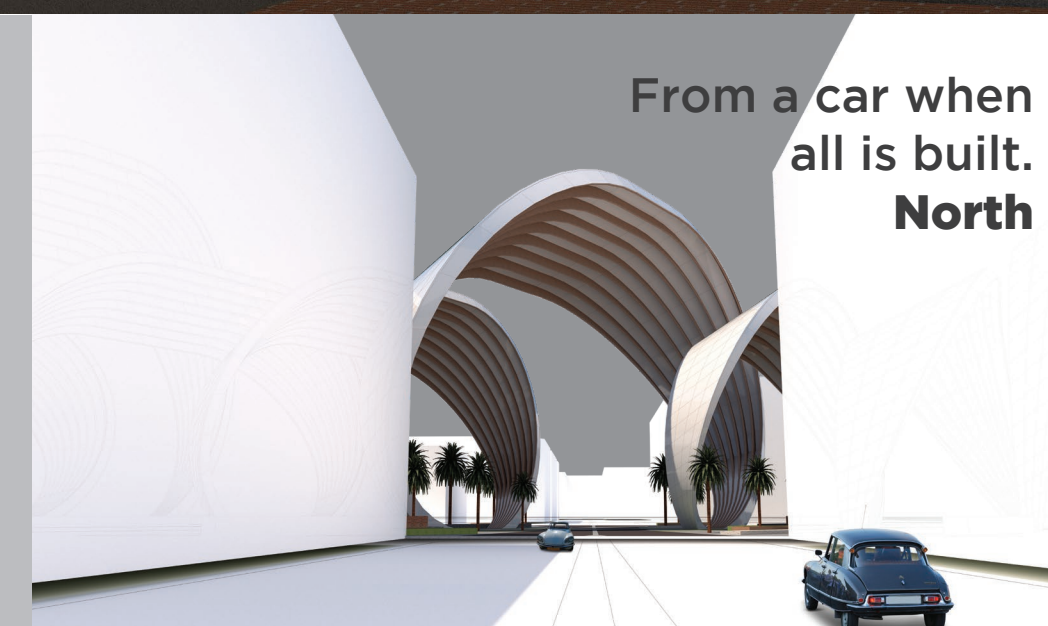

The complete piece
From the north, the spiral

From the south west,
like walking giants

From a car when
all is built.
North

South

COCOON represents the metamorphosis of our culture from the ages of waste to the ages of balance with our environment. Shaped like a spiral, it also represents the flow of energy, the connection between Masdar city and Abu Dhabi, and the movement towards the future.
