

**INNOVATION**  
Innovation:  
Net for water condensation

**MATERIALS AND RESOURCES**  
Building Product Disclosure  
and Optimization:  
Use of 5 materials with an high  
percentage of recycled materials.

**ENERGY AND ATMOSPHERE**  
Renewable Energy Production:  
PV and Wind Power

**WATER EFFICIENCY**  
Outdoor Water Use Reduction:  
Native species: Dates palms  
and Aloe

**LOCATION AND TRANSPORTATION**  
Green Vehicles:  
Preferred parking for green vehicles  
and charging stations.

**SUSTAINABLE SITES**  
Rainwater Management:  
Rainwater harvesting system  
Heat Island Reduction:  
Shading structure covered by PV panels
