

# THE CATCHER

## PERFORMANCE CENTER

Performance theater is located at the Eastern portion of the site that is closer to the city center. Unlike the other modules, this is not a dome, but a whole sphere, signifying its unique function. The sphere hosts a visitors center and an event space with bleachers surrounding a stage. It can be used for theatrical and musical performances, educational events, and panoramic movie screenings. When no event is happening within, the space will host kinetic, audio and visual installations created by invited artists.
