

MULTIFUNCTIONAL COLONNADE

The colonnade is 4 meters wide and 60 meters long. The steel-wood structure ensures mechanical strength while showing the beauty of natural materials. The wooden structure and palm weaving cover a large area of the colonnade surface. This construction technology is what the locals are good at, which improves the villagers' sense of participation and facilitates later maintenance and repair.

In the future, the colonnade can be transformed into a variety of functions according to the development of local tourism. It can be a ceremonial place to welcome tourists, a resting space to cool off and shelter from the rain during the day, a lively handicraft market, or even a quiet wild luxury hotel.

TRADITIONAL WOODEN ROOF STRUCTURE

STEEL STRUCTURE FRAME TO ENSURE OVERALL STRENGTH

BLUE PALM ROPE SYMBOLIZING THE OCEAN

STRUCTURAL COLUMNS ARE DECORATED WITH COCONUT SHELLS

RAINWATER CAN FLOW INTO THE GROUND DRAINAGE DITCH ALONG THE ROOF

LOCAL VOLCANIC ROCK PAVING

DRAINAGE DITCH

Reserve Growth Space For Shade-Tolerant Crops Under Photovoltaic Panels

The Spacious Central Area Of The Colonnade Can Realize A Variety Of Functional Demands

Visitors Can Place Wooden Stakes For Blessing To Increase Participation

The Enclosed Square Area Will Become The Most Attractive Social gathering Place At Night

Square Function: Ritual Assemblies

The circular square for ritual assemblies and social gatherings serves as the spiritual core of the land artwork. At the same time, it provides the possibility of various cultural activities.

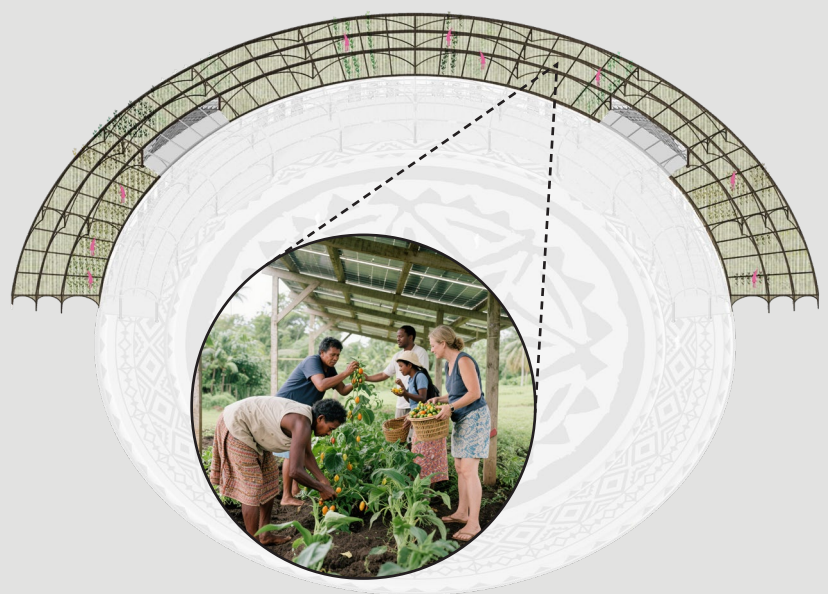

Colonnade Function: Dining Bar

An Eco-Gastronomic Retreat Amidst Untamed Nature: Savoring Indigenous Fiji Cuisine and Beverages while Immersing in Authentic island Culture.

Colonnade Function: Rustic Luxury Hotel

When local tourism requires, the space inside the colonnade can be converted into a rustic luxury hotel to provide tourists with a unique sightseeing experience.

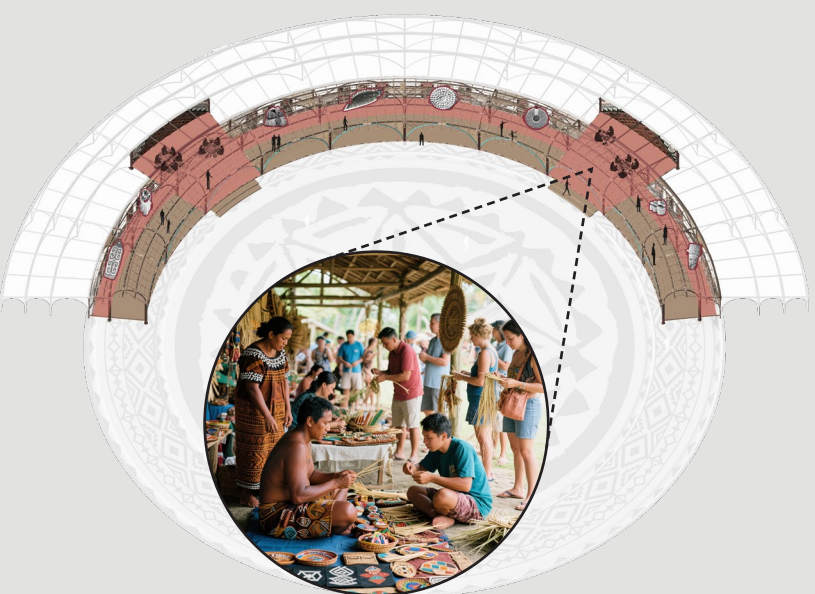

PV Array Function: Agricultural Experience

There is ample space under the photovoltaic panels for agricultural planting, and visitors can participate in picking and making delicious food.

Colonnade Function: Sunshade and Rain Shelter

During daily life, the colonnade provides shade and rain protection, and is a comfortable space for villagers and tourists to rest and communicate.

Colonnade Function: Handicraft Market

The colonnade can hold traditional handicraft markets regularly, where visitors can purchase their favorite items or participate in the production themselves to increase the interactive experience.
