

PROGRAMMING: FRAMING INNOVATION AND COMMUNITY

SOLAR FRAME SITE PLAN
The Solar Frame site plan is at right. Terraced land allows for water capture on the north and south edges. The land will continue to serve residents and be stewarded by the community for agricultural and other preferred uses.

- 1 Central Workshop/Event Space
- 2 Raised Podium/Landscape allow for Outdoor Theater Space
- 3 Storage Area with Restrooms
- 4 Mini Grid/Electric Shed
- 5 Water Capture at Cistern Below Central Podium
- 6 Terraced Gardens
- 7 Terraced Agriculture
- 8 Project Site Boundary (indicated by dashed lines)

ENERGY FRAMEWORK

FOCUS FRAME
The area is highlighted at right and enlarged in the plan below.

- KEY BELOW FOR DEVELOPMENT**
- PHASE 1: PROTOTYPE**
- A Solar Installation
 - B Cistern
 - C Electrical Storage/Mini Grid
 - D Rainwater Capture @ Roof/Site
- PHASE 2: FUTURE DEVELOPMENT**
- E Solar Installations at Homes
 - F Tidal Energy Installation
