
PRODUCT SPECIFICATIONS

FLEXIBLE SOLAR PANEL
3mm thick, flexible construction, it can adapt to all surfaces

EASY INSTALLATION
No specialized personnel required, it can be assembled in 10 minutes

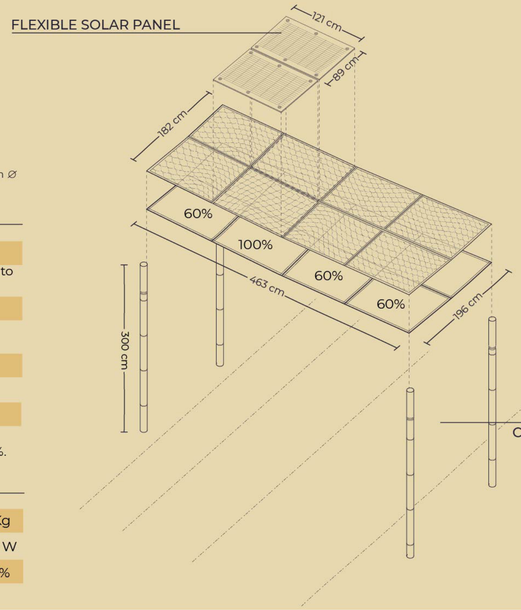
MATERIAL
FTFE , monocrystalline silicon

WARRANTY
in the first year, degradation less than 2.5% over 25 years, performance guaranteed at 85%.

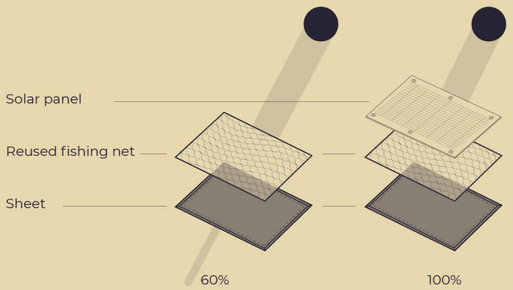
TECHNICAL DATA

Weight	3 Kg
Maximum power/ Emax (Wp)	200 W
Effciency	22 %

TECHNICAL DATA SHEET



SOLAR RADIATION PROTECTION

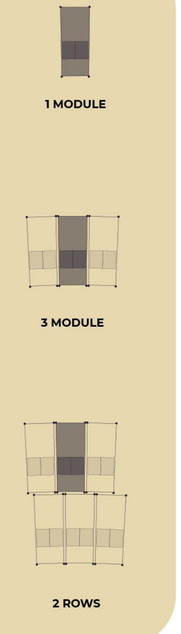


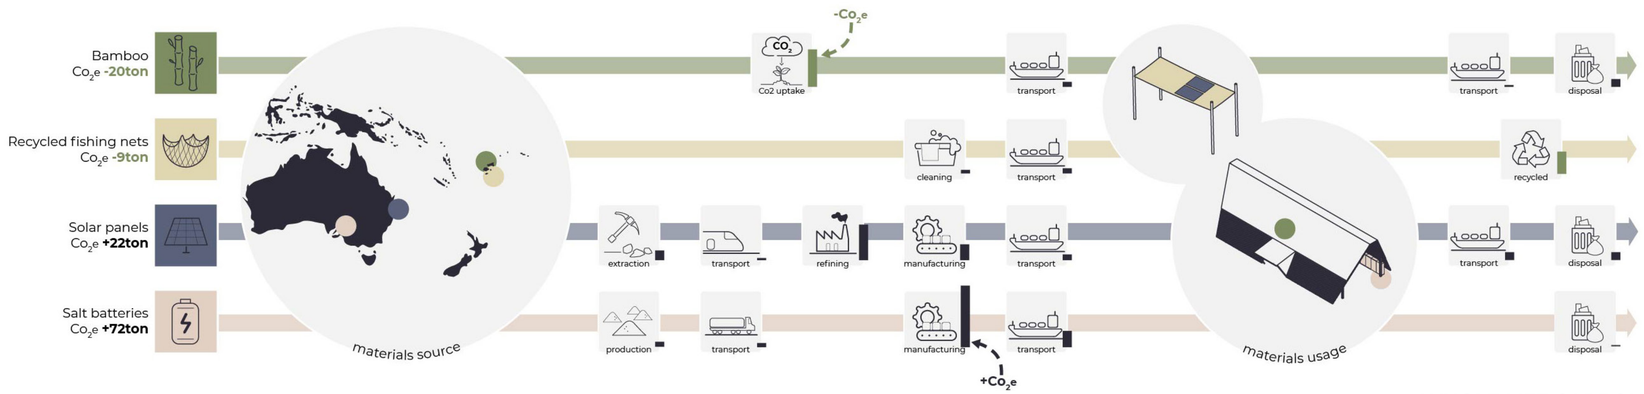
KAVA
Piper methysticum
In addition to being the base for the creation of the famous beverage with relaxing properties, kava could represent a significant source of income for the village when sold.

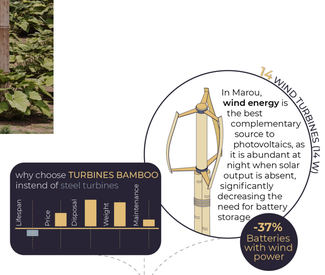
TARO
Colocasia esculenta
When grown in well-irrigated soils or shaded areas, it can provide significantly higher yields, ensuring nutrition security.

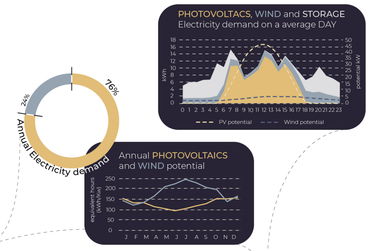
BELE
Abelmoschus manihotcum
Rich in vitamins, bele helps improve food security, promoting healthy food for the community.

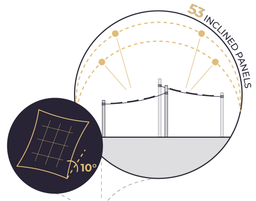
MODULARITY

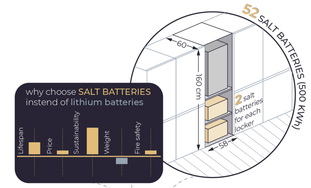


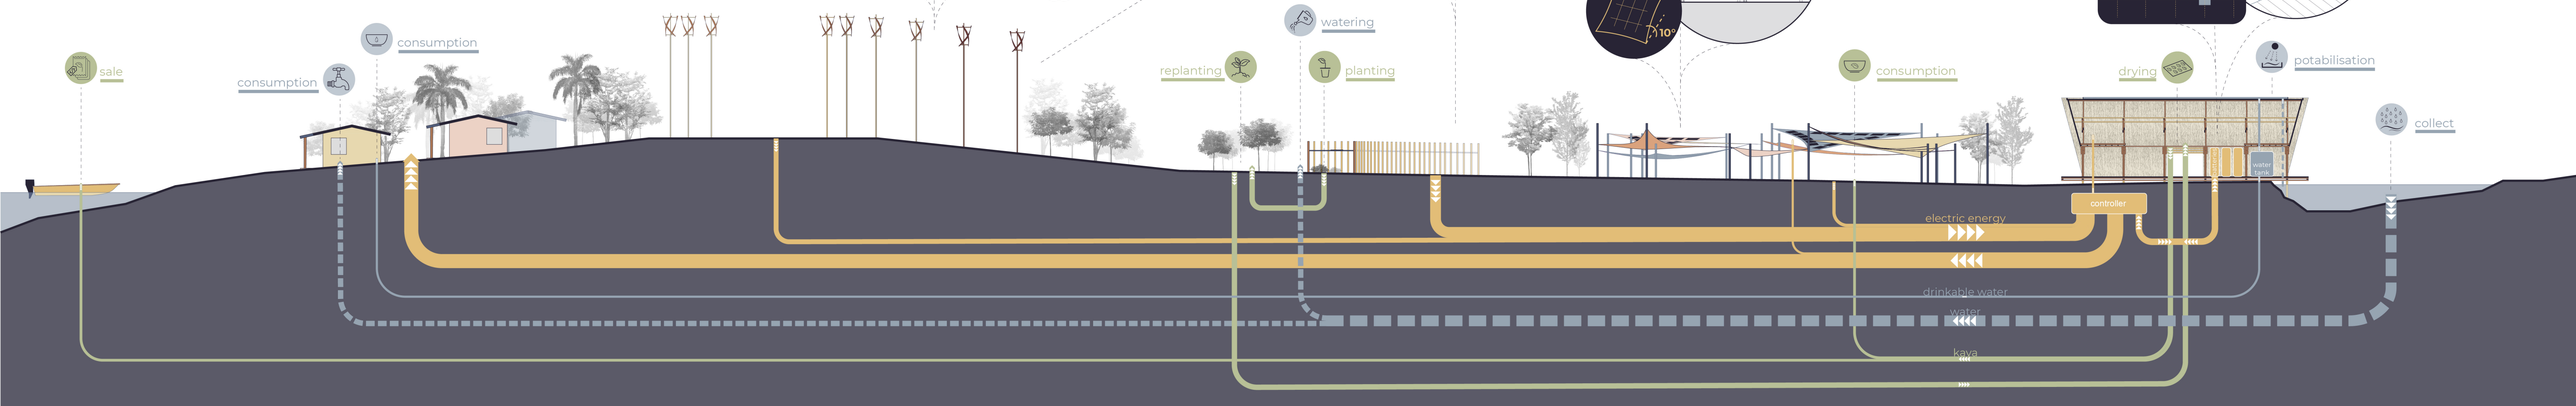












WHOLE LIFE CARBON
