

* Ta-Se-No *

The * Star * Kiva

*

We propose to grow in stages, a “Kiva” a sacred meeting and healing space on 2 levels near to the Fly Geyser, called * Ta Se No * which is Northern Paiute for * Star *

On an upper top platform based on natural healing geometries is a 12 sided Star chamber. Its the meditation meeting hall, the chapter house,

The next stage is to construct below with appropriate earth construction. a doughnut shaped torus sound healing Kiva.

That is also as an information exhibit and Visitor center for the hotsprings.
