

# HAVEN HOMES

COST EFFECTIVE  
HYPER EFFICIENT  
OFF GRID HOMES

HAVEN HOMES ARE DESIGNED BY COMBINING THE MATHAMATICS OF THE GOLDEN RATIO, WITH THE GEODESIC PRINCIPALS OF BUCKMINSTER FULLER. THIS COMBINATION ALLOWS US TO ENCLOSE 30% MORE INTERIOR SPACE VS. EXTERIOR SURFACE AREA, AS COMPARED TO A SIMILAR SIZED RECTANGULAR BUILDING. THIS EQUATES TO REDUCED CONSTRUCTION MATERIALS , AND A MORE EFFICIENT USAGE OF ENERGY. THE ADDED BONUS IS THAT IT'S JUST AN INCREDIBLY COMFORTABLE SPACE TO OCCUPY.

OFF GRID HAVEN HOME LOCATED IN  
WRIGTH CANYON, PERSHING COUNTY NV.
