Home is Where the Hearth is. Creating an Energy Springboard for Fly Ranch Activities.

- 700 Bar, 200kWh Hydrogen Tank
- 700 Bar Oxygen Tank
- Gas Turbine
- 700 Bar Water Pump
- 10 kWh Battery
- Electrolysis
- Refrigeration, <2kWh/ day

Energy Sources:
- min 4 Solar Panels, 2m x 3.3m ~1000-1500 Watts
- 1 hp Electric Motor

Energy Uses:
- Gas Stove
- 10 kWh Battery
- Refrigeration, <2kWh/ day

Water Management:
- Cistern
- Condensation
- Water Vapour
- Water
