

SATELLITE COMMUNITIES / MAIN HUB

USING LESS WITH PASSIVE DESIGN

WITH A FORM INSPIRED BY EXISTING SITE FEATURES, USING LESS BLENDS WITH THE FLY RANCH ENVIRONMENT. THIS FORM THEN SUPPORTS THE PRIMARY GOAL OF THE PROJECT, SAVING ENERGY, THROUGH THE CONCEPT OF **PASSIVE DESIGN**, WHICH REDUCES THE NEED FOR ENERGY BY USING NATURALLY OCCURRING SUN AND SHADE PATTERNS. **INCREASING ENERGY EFFICIENCY** IS THE MAIN GOAL. **PRISM SOLAR** AND **SOLAR ORBS** ARE THE SECONDARY ENERGY SOURCE FOR **BLOCK CHAIN** COMMUNITIES.
