

2BEE OR NOT 2BEE ...seen

HISTORY AND CONTEXT
Before this field was abandoned it was an American camping.

MANNHEIM slogan is Leben im Quadrat, but may be nature this time need to avoid de grid.

We propose a camping area, a free remake of camping idea. This time human must remain unnoticed at some necessary times of the year due to climatic situations and bee reproduction cycles.

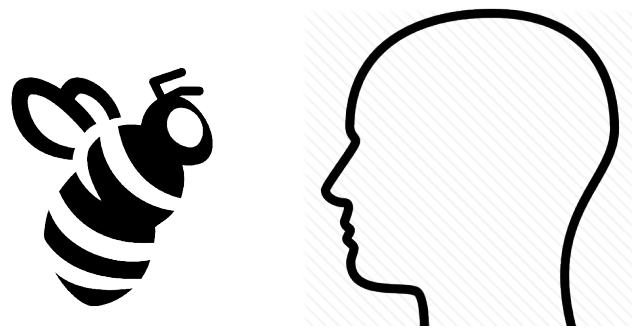

Use of a folding wooden structure that allows the field to be kept intact. Using horizontal suspension steel cables and escaping this time from the grid structure.

The module will be kept in the main circular structure placed in the centre and conjunction of the roads.
