

# ◀ Large SCALE

Small ▶

At a smaller scale, a single SunPath arbor can create an inviting outdoor living space in a small 3x3 meter footprint, ideal for small gardens, transit stops, and similar sites, and providing 2.7 kilowatts of clean energy for grid-tied and off-grid use.

- Spinelli Park
- SunPath  
Example Layout

The above layout shows one possible configuration that represents:

3.3km of covered walkway

2.6 Megawatts of solar power generation
