

# "Super Pod" to Public Park

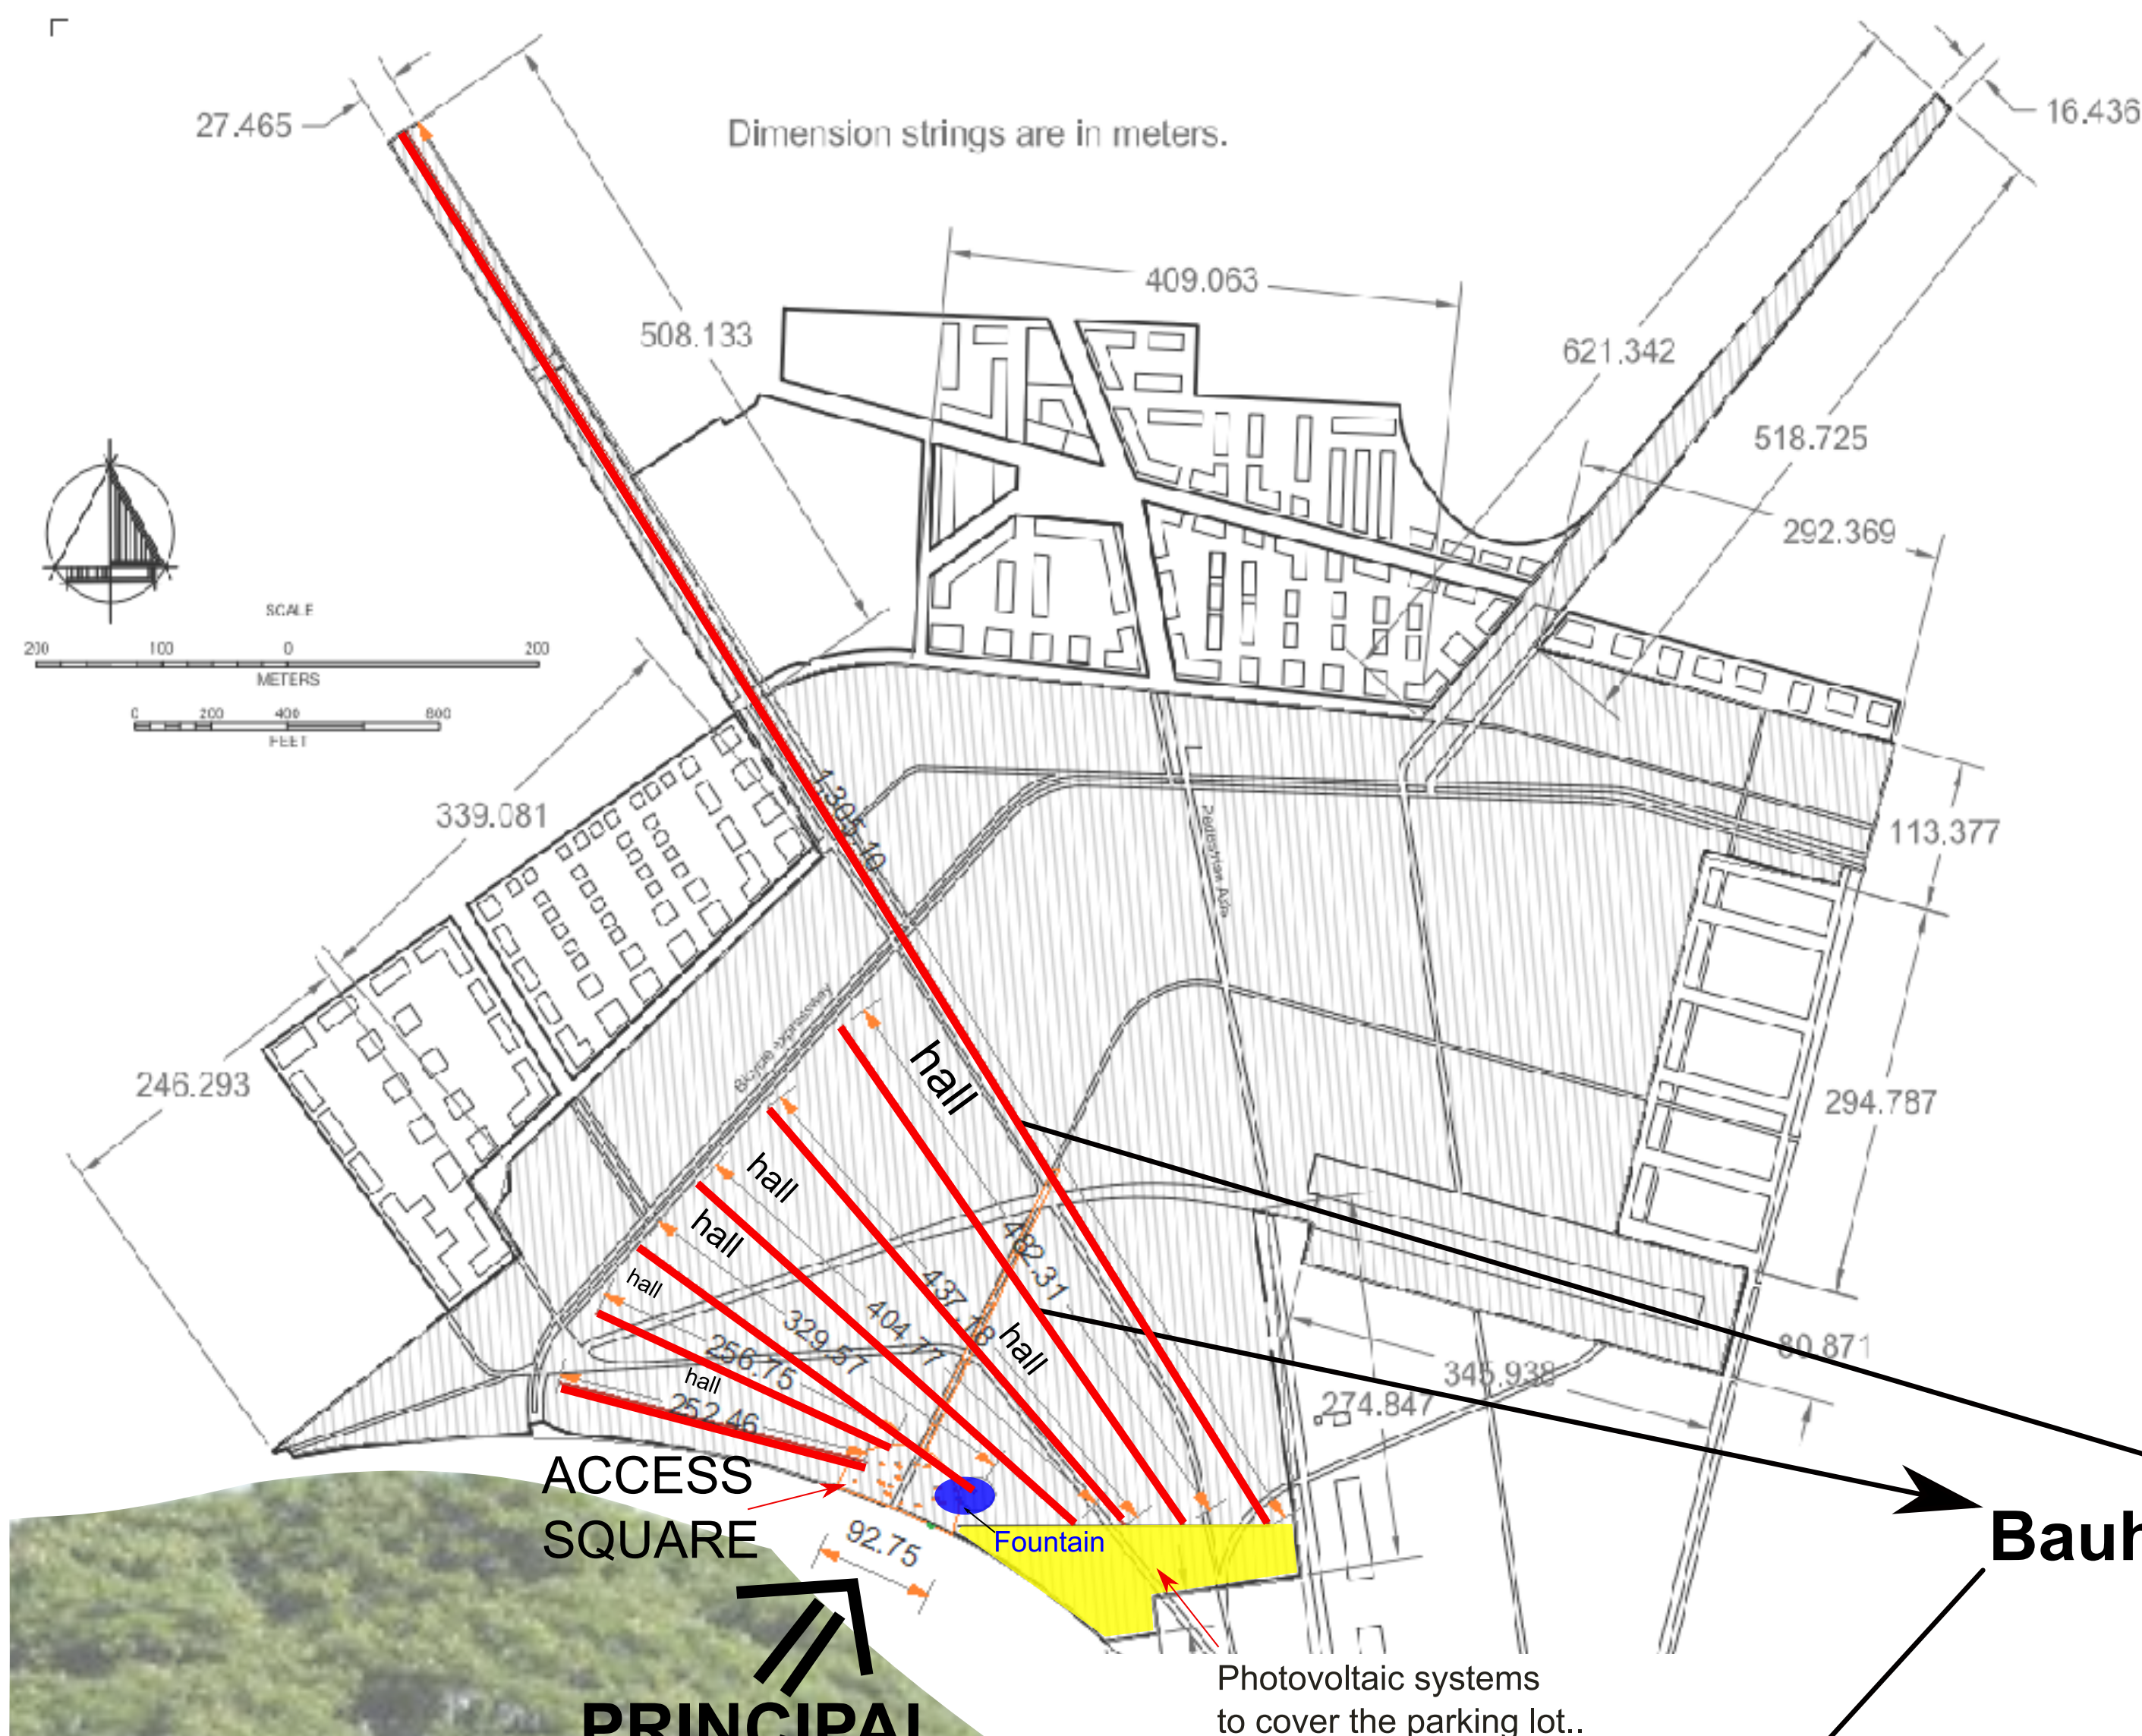

Scalable  
Module.

(logo unique graphic identity,  
developed only to LAGI 2022  
Mannheim design proposal).

"First we pollute our rivers... and we should no  
drink from them..."

The new news is that rainwater is no drinkable  
anywhere in the world due to the presence of  
perfluoroalkyl and polyfluoroalkyl substances (PFAS),  
says a study published in the journal  
"Environmental Science & Technology".  
Highly carcinogenic substances...

God prepared us for the use of masks, because sadly we  
know what follows. It's time to act and stop this pollution madness"

**Bauhaus-Wall**
